TECHNICAL SKILLS

Gmail • GitHub • Node.js • Python • Numpy
• Java Spring • Robotics • Cybersecurity •
HTML • C/C++ • Java • Microsoft Excel •
SQL • Forensics

PROJECTS

CloudVMX
A cloud virtualization platform built for simultaneous multi-OS execution through a web interface.
Romora

A technical software framework focused on smart resource management and optimization.
FraudGuard AI

An AI-driven threat intelligence system designed to detect and mitigate fraudulent activities.
Autonomous Grocery Robot

A physical robotic system integrated with computer vision for automated item retrieval.

ShoppingAssistant
A decision support data-driven application engineered to optimize consumer shopping behaviors.
Automatic Barcode Scanner

A hardware-software pipeline utilizing automated barcodes for instant item logging.

PROFESSIONAL SUMMARY

A peculiar character who strives for attaining new skills and is eager for new opportunities. Dedicated to implementing knowledge gained from various sectors and experiences with expertise.
Continuously learning and adapting to new platforms and technologies for development, contributing effectively to projects and teams through technical proficiency and problem-solving.

WORK EXPERIENCE

Innovation Mission Punjab 02/2026 – Present | Mohali, India

Campus Ambassador
Role aimed at accelerating the local startup ecosystem through strategic outreach
• Supported student entrepreneurs through tailored mentorship, physical networking, and startup orientation programs.
• Promoted grassroots innovation by organizing high-impact engagement activities and campus initiatives.

Desh Bhagat University 08/2025 – Present | Punjab, India
Convenor

Convenor of Institution's Innovation Council (IIC)
• Strengthened student mentorship channels, startup networking, and internal campus engagement initiatives.
• Demonstrated exceptional leadership, professional communication, and collaborative teamwork skills.

Technowskola 10/2025 – 04/2026 | Punjab, India
Robotics Instructor

• Enhanced technical robotics learning through hands-on practical projects and training on emerging technologies.
• Encouraged structured innovation, active STEM development, and practical industry-based learning opportunities.

Roboticsshala (Remote) 08/2025 – 10/2025 | Mandigobindgarh, Punjab
Robotics Instructor

• Trained students in core robotics frameworks through interactive projects and fundamental STEM learning.
• Mentored competitive teams for technology hackathons, fostering innovation and teamwork development.

Winnovation Education Services Pvt. Ltd. 06/2025 – 08/2025 | Punjab, India
AI & Robotics Engineering Intern

• Developed AI-powered robotic vision processing models and autonomous navigation systems using advanced algorithms.
• Optimized physical robotic performance through comprehensive sensor analysis, testing, and automation improvements.
• Collaborated on prototype development, user experience research, and peer mentoring within key robotics projects.

Innovation Mission Punjab

02/2025 – 07/2025 | Mohali, India

Campus Ambassador (Previous Tenure)

- Strengthened student community engagement through structured mentorship, industry networking, and campus initiatives.
- Collaborated with regional execution teams to improve student outreach pipelines and maximize overall program success.

Winnovation Education Services Pvt. Ltd.

06/2024 – 08/2024 | Punjab, India

CyberSecurity Research& OperationsIntern

- Implemented specialized security tools to detect, isolate, and address platform vulnerabilities.
- Analyzed secure networking protocols to ensure end-to-end data integrity and infrastructure security.
- Assessed localized vulnerabilities in active servers and operating systems to enhance overall security posture.
- Evaluated advanced risk vectors associated with target websites, external URLs, malicious files, and media threats.

EDUCATION

Desh Bhagat University

06/2023 – 06/2027 | Punjab, India

BachelorofTechnology(B.Tech) in Computer Science Engineering

Specialization: Cyber Forensics & Cyber Security

CERTIFICATIONS

- **Cyber Security & AI/Robotics Certifications** – Winnovation Education Services
- **Comprehensive Technical Certifications** – Coursera (Software Engineering, HTML/HTML5, C/C++, Java, Foundation of Cybersecurity, Microsoft Excel, Database and SQL, Fundamentals of AI/ML & Python)
- **Virtual Internships Portfolio** – Eduskills Foundation (Data Analytics Process Automation, Ethical Hacking & Android Development)
- **Advanced Soft Skills Development** – Swayam
